# MICAH vs. THE MULTIVERSE

## A REMOTE ESCAPE ROOM

A groundbreaking escape room experience for remote teams. Each person plays from their own computer, interacting with the rest of their team and our unique storyline.

**Meet Micah.**

**Your team must help Micah survive for 1 hour. If your team can't help Micah... the world may not survive.**

**THIS IS NOT A VIDEOGAME**

### **How To Save The World**

Each member of your team will connect to Micah via group video conference. While connected, your team must use the materials and tools you've been provided to help Micah survive her trip into the MultiVerse. To survive she must escape the room she is in.

Solve puzzles, find hidden information, unravel myths, hack emails, keep Micah calm, and figure out why somebody would create a secret message using cats to perform morsecode. This adventure is family friendly.
