TASTINGS

FIREFLYTEAMEVENTS.COM

Journey to lush vineyards without leaving your home office. Join our professional sommelier as they guide your group through a light fun wine tasting session. Learn to swirl, sniff, sip, and swish like the experts and how to say "It has a nice bouquet that opens up well in the glass" without faking it.

The guided session options will include lessons on etiquette, sipping technique, and how to explore the depths of wine. Our goal is for participants to be able to confidently sample wines on their own and describe what flavors they like so that they can confidently describe their tastes to sommeliers when ordering wine in the future.

Included

- Our sommelier will walk guests through the process of tasting each wine and lead a discussion on its qualities
- Have all your vino questions answered by an industry expert
- Enjoy a toast to positivity and a laid back hour of socialization and learning a new skill
- Impress your friends by pulling off haughty comments like "that vintage is a bit woody for my taste"

We have both Wine 101 and Guided Tasting options. Guided Tastings require additional purchase of wine.

Purchasing Wine?

Upon request, we can help facilitate the purchase and shipping of wine from one of our wine partners. This allows all guests to taste the same wines during your session and makes a great gift. This is a separate cost.

GROUP SIZE: UP TO 30 (larger groups possible)

VIRTUAL FORMAT: ZOOM OR WEBEX

COST: \$2000

Contact michael@fireflyteamevents.com to schedule your session.
